

Application No. 09/740,209

## REMARKS

In an Office Action dated March 16, 2006, it was pointed out that Applicant's response of December 21, 2005 contained an inconsistency. In particular, Claim 11 was indicated as "previously presented", however a limitation "below 15MHz and thereby generate a capillary wave" in the prior version of the claim was not included. Applicant apologizes for the error; the intent was to provide the claim as "previously presented" with the limitation of a driver element outputting acoustic energy below 15MHz. Applicant submits herewith the claim 11 with the included limitation.

In view of the preceding amendments and remarks, Applicant respectfully submits that the claims as amended are allowable over the cited prior art reference, and allowance is hereby respectfully requested. In the event that the Examiner believes a teleconference would facilitate prosecution, Applicant respectfully requests that Examiner contact the undersigned.

Respectfully submitted,
